September 2021 Updates - People

Dear Friends & Partners,

Our Nairobi and Mara teams have been busy getting around projects for the past couple of months as we get close to the last leg of 2021. We'd like to give you progress updates on one of our pillars: People.

People

One year in Amboseli with Communities Health Africa Trust (CHAT)

Community Health

We're excited about the progress we've made so far through our partnership with Communities Health Africa Trust (CHAT) in the Amboseli Ecosystem. **Over 2,300 individuals have been reached with CHAT's backpack strategy using the population, health, and education approach in the area.**

Scholarship Beneficiary Spotlight

We celebrate the achievement of one of

our very own **Conservation Leadership Program** scholarship beneficiaries.

Evalyn Sintoya, an undergraduate Natural Resource Management student at Africa Nazarene University shares with us her passion for conservation and women empowerment.

She also gives us a glimpse into her experiences, lessons, and observations during her attachment at **Naboisho Camp, Asilia Africa**.

Read about our scholarship beneficiary spotlight

Wildlife Club Book

After a successful reception of our first edition of the WCK book, **Ole Peenko's Journey and Other Stories**, KWT released the second edition in July titled: **Ole Peenko Learns from Naserian**.

In this edition, fictional stories on climate change and the co-existence of humans and wildlife were featured. We have distributed copies of the book to most of the schools we support.

The production and publication of the book were supported by **Asilia Africa** and **WWF Kenya**.

KWT seeks to support organizations like **CHAT**, which empowers communities to make healthy choices that, in turn, help to protect habitats and wildlife. We strongly believe in recognizing, encouraging, and promoting leadership among future wildlife conservation and management professionals through supporting their wildlife and

conservation-based education.

All this is made possible through partnerships with other stakeholders and their contributions.

Ways to give

To ensure that we continue to run and support predator conservation programmes, we need your support. Your donation today will ensure that communities and predators in the Greater Mara, Samburu, and Amboseli - Tsavo ecosystems continue to thrive. No amount is too little.

Click below to donate.
